Type	Size	Shape
PC	20	K

TYPE *	ABRASIVE POWER										SURFACE FINISH										HARDNESS	SPECIFIC WEIGHT
PAM4																						1,82
PH2																						1,78
P(S)																						1,72
PCA16(S)																						1,75
PCA67(S)																						1,65
EC67(S)																						1,65
PC(S)																						1,76
PB1(S)																						1,73
E+R(S)																						1,73
RX10(S)																						1,79
R41(S)																						1,75
RX(S)																						1,8
E42(S)																						1,82
RPM(S)																						1,86
E6Y(S)																						1,89
H7(S)																						1,8

* All of our abrasive plastic media can also be supplied with an anti-foam formulation which reduces from 5 to 6 times the amount of foam normally produced in vibratory machines, without affecting their properties and quality.

To order this formulation, simply add an S to the name of the media.

Example: the standard type RX becomes, with the antifoam formulation, RXS
